Table of contents

1. Normal text
2. Code blocks
3. Mathematics
4. Tables
5. Images

Normal text

This is what a regular slide can look like in Neobeam.

- A cool fact
- Interesting tidbit

My favorite letters are:

1. A
2. B
3. C

A quote from my favorite author

"Hello" - Author Cool 2024

Code blocks in Neobeam

We can define `variables` inline, and code in blocks (with syntax highlighting!!!):

```
if (marp) {  
    apply.neobeam();  
}
```

Mathematics corner

Formulas

The length of a vector can be computed by the following formula

$$\|\bar{v}\| = \sqrt{a^2 + b^2}$$

where $\bar{v} = (a, b)$

Definitions

Blockquotes with level 4 (####) headings inside get translated to definitions like:

Vector

A collection of numbers

Data

Tables are also decorated in this theme!

Left Row	Center Row	Right row
Some	Cool	Data
Some	Cool	Data
Some	Cool	Data

Images

Images can be left-aligned, centered, and right-aligned!
